

Investment pillars

We are convinced that becoming allies with government institutions, the private sector and the communities in our areas of influence is the best strategy for achieving better results. **That is why we work together with them and generate the Shared Value that contributes to:**

- The reduction of poverty in the region
- The consolidation of territorial peace.

What is our goal?

To make sure our neighboring communities can be socially, environmentally and economically sustainable in the post-mining period of the region.

How do we achieve this?

We have a social investment plan based on three pillars:

Investment Pillars

Education:

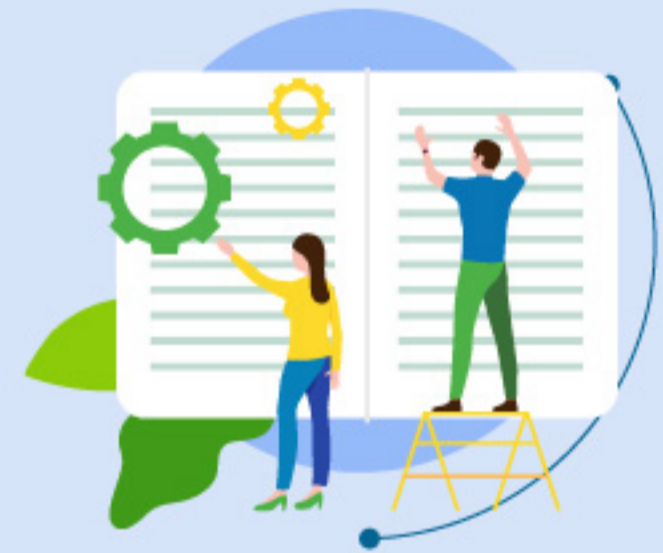

- Quality Improvement
- Access to opportunities

Social Capital Development

- Capacity building
- Promotion of values
- Efficient management of public funds

Income generation

- Entrepreneurship
- Employability

Overarching CSR programs, development of external (individuals, state, others) and internal synergies for social development

Together we will
continue to
CREATE NEW OPPORTUNITIES

for growth and sustainable development **beyond mining** for the entire territory.
